

## REDUCE EMPLOYEE HEALTHCARE COSTS

### Medication Therapy Management: A healthy benefit with big savings

Employers spend approximately \$30k per employee per year to manage high-risk employees and their families. **Effective medication management can reduce an individual's overall healthcare cost by as much as 30% -- or up to \$9k per employee per year!** With savings like that, it's time employers explore Pharmacist Partners® medication management benefit solutions.

Pharmacist Partners® is the only comprehensive medication therapy management benefit offering that matches licensed pharmacists one-to-one with employees to ensure that all prescribed medications are safe and appropriate, and are taken effectively. The result... a healthier and happier workforce!

Pharmacist Partners® is dedicated to increasing worker productivity and reducing healthcare costs. We do this by providing medication therapy management to help individuals get the best benefits from their medications by actively managing drug therapy and by identifying, preventing and resolving medication-related problems.
