

Your In-Home Medication Experts

Pharmacist Partners[®] provides personalized medication management services delivered by pharmacists to individuals in their homes to optimize therapeutic outcomes and reduce medical expense.

Pharmacist Partners[®] is dedicated to improving health outcomes and keeping people in their homes longer. We do this by providing medication therapy management to help individuals get the best benefits from their medications by actively managing drug therapy and by identifying, preventing and resolving medication-related problems.

RxConnectLive™ The Live-Touch Solution

Pharmacist Partners[®] is the only comprehensive medication therapy management service that matches *licensed* Pharmacists one-to-one with patients and their caregivers in their homes to ensure that all prescribed medications are safe and appropriate, and are taken effectively.

What is a CKO™? Clinical Knowledge Organization

A CKO drives change within the healthcare marketplace by placing a higher value on educating practitioners while advocating for patients.

Medication Management improves wellness

- Coordinated care across care settings, and between providers, patients & pharmacists
